74. WANG Guijin,ZHANG Qian,ZHU Wenwu,et al, An end-to-end robust approach for scalable video over the Internet, SCIENCE IN CHINA (English version) SERIES F INFORMATION SCIENCES, 2004 Vol.47 No.2

Conference papers

10. L. Ma, Q. Zhang, Y. Xiong, and W. Zhu, "Interference aware metric for dense multi-hop wireless network", IEEE ICC 05

46. X. Zhang, G. Song, Q. Zhang, and W. Zhu, "Reach-ability Analysis of Overlay in Pure Peer to Peer Network", IEEE ICC'03.

90. H. Liao, Q. Zhang, W. Zhu, and Y.-Q. Zhang, "TCP/IP header compression over air links", The Tenth Wireless and Optical Communications Conference on 3G wireless April, 2001, Newark, CA, USA.

91. H. Shao, W. Zhu, and Y.-Q. Zhang, “A general framework for scalable media over the next generation Internet” (invited paper), International Conference on Media Futures, May Italy.

• IETF Standard Drafts

• Patents:

1. United States 7602707 - Quality of service differentiation in wireless networks (2009-10-13)
2. United States 7593423 - Quality of service differentiation in wireless networks (2009-09-22)
3. United States 7581010 - Virtual connectivity with local connection translation (2009-08-25)
5. United States 7558244 - Robust, inferentially synchronized transmission of compressed transport-layer-protocol headers (2009-07-07)
7. United States 7539188 - Robust, inferentially synchronized transmission of compressed transport-layer-protocol headers (2009-05-26)
8. United States 7536467 - Peer-to-peer (P2P) mobility system, and method (2009-05-19)
9. United States Published Applications 20090103461 - Hierarchical application programming interface for communication middleware in partially connected mobile ad hoc networks (2009-04-23)
    Canada CA 2480933 - Metaspace: a communication middleware for partially connected mobile ad hoc networks
11. United States 7499432 - Vertical roaming in wireless networks through improved quality of service measures (2009-03-03)
12. United States Published Applications 20090046603 - Path discovery and message transfer in partially connected mobile ad hoc networks (2009-02-19)
13. United States 7489656 - Bandwidth allocation (2009-02-10)
17. United States 7433814 - Network emulator architecture (2008-10-07)
18. United States 7426178 - Vertical roaming in wireless networks through improved wireless network cell boundary detection (2008-09-16)
19. United States 7411908 - Method and system for network emulation using bandwidth emulation techniques (2008-08-12)
20. United States 7397759 - Response for spurious timeout (2008-07-08)

22. PCT 2008/049267 - Quasi-orthogonal space-time block encoder, decoder and methods for space-time encoding and decoding orthogonal frequency division multiplexed signals in a multiple-input multiple-output system (2008-05-02)

25. United States 7308402 - Error resistant scalable audio coding partitioned for determining errors (2007-12-11)

27. United States 7283966 - Scalable audio communications utilizing rate-distortion based end-to-end bit allocation (2007-10-16)

29. United States 7203850 - Power management for a network utilizing a vertex/edge graph technique (2007-04-10)

30. United States 7194002 - Peer-to-peer based network performance measurement and analysis system and method for large scale networks (2007-03-20)

31. United States 7177271 - Method and system for managing admission to a network (2007-02-13)

32. United States 7158539 - Error resilient windows media audio coding (2007-01-02)

33. United States 7154869 - Vertical roaming in wireless networks through improved quality of service measures (2006-12-26)

34. United States 7133368 - Peer-to-peer method of quality of service (QoS) probing and analysis and infrastructure employing same (2006-11-07)

36. United States 7096034 - System and method for reducing power consumption for wireless communications by mobile devices (2006-08-22)

37. United States 7092405 - Vertical roaming in wireless networks through improved quality of service measures (2006-08-15)

38. South Korea 1020050041009 - Orthogonal pulse polarity modulation, capable of modulating wireless communication of uwb system with power saving method (2006-05-17)

40. South Korea 1020050021410 - Response for spurious timeout, capable of conservatively controlling congestion state parameters and maintaining packet flow after detection of spurious timeout (2006-05-15)

42. China 200480009353 - Vertical roaming in wireless networks through improved wireless network cell boundary detection (2006-05-10)
43. China 200480009460 - Improved vertical roaming in wireless networks through improved quality of service measures (2006-05-10)
44. United States 6999432 - Channel and quality of service adaptation for multimedia over wireless networks (2006-02-14)
46. S.Korea 1020057016110 - Improved vertical roaming in wireless networks through improved quality of service measures (2005-12-07)
47. S.Korea 1020057016011 - Quality of service differentiation in wireless networks (2005-12-07)
52. Europe EP1578070 - Method and apparatus for responding to a spurious timeout (2005-09-21)
53. China 20051005928 - Method and apparatus for responding to a spurious timeout (2005-09-21)
54. United States 6944144 - Vertical roaming in wireless networks through improved quality of service measures (2005-09-13)
55. United States 6937591 - Quality of service differentiation in wireless networks (2005-08-30)
56. United States 6934679 - Error resilient scalable audio coding (2005-08-23)
58. China 200510006496 - Power management for a network (2005-08-03)
60. S.Korea 1020050005451 - Power management technique for a network including a plurality of computing devices, particularly concerned with reducing the number of wakeups for the computing devices within the network by increasing the number of adjacent channel time allocation periods within a predetermined time period that share a common computing device (2005-07-26)

   China 200410090314 - Metaspace: communication middleware for partially connected mobile ad hoc networks (2005-03-23)

   S.Korea 1020040074067 - Metaspace: communication middleware for asynchronous messaging service in partially connected mobile phone ad hoc networks (2005-03-22)

64. S.Korea 1020040073427 - Measurement-based construction of a location recognition overlay network, particularly for preventing generation of much delay when neighboring peers communicate with each other from a distance in a lower transmission network (2005-03-21)

65. China 200410069943 - Virtual connectivity with subscribe-notify service (2005-03-16)

   Japan 2005-039820 - Virtual connectivity with local connection translation (2005-02-10)

   Japan 2005-039832 - Virtual connectivity with subscribe-notify service (2005-02-10)

   China 200410069942 - Virtual connectivity with local connection translation (2005-02-09)

   S.Korea 1020040054482 - Virtual connectivity having local connection translation, especially in relation to a computer network where a computer, connected to a network, can modify its network attachment point (2005-01-27)

   Europe EP1499088 - Virtual connectivity with subscribe-notify service (2005-01-19)

   Europe EP1499087 - Virtual connectivity with local connection translation (2005-01-19)

   Europe EP1376388 - Method and system for encoding a mark-up language document (2004-01-02)

68. United States 6671320 - CIF to QCIF video bitstream down conversion (2003-12-30)

   Japan 2003-316397 - Error resistance coding (2003-11-07)

70. Europe EP1349317 - System and method for peer-to-peer based network performance measurement and analysis for large scale networks (2003-10-01)

72. United States 6363113 - Methods and apparatus for context-based perceptual quantization (2002-03-26)
