# The Computer Museum
Downtown Boston on Museum Wharf
A bit of the past.
A bit of the future.
A lot of fun.

Enter

In its more than half an acre of exhibits you can:
- "Paint" a picture, create your own melody, even program a computer to say your name.
- Change the computer picture of yourself, design a car, or create a fractal snowflake.
- Journey through computer history—from the largest ever built to today's desk-top micros.
- Discover the latest in computer animation.
- Fly your own plane on a flight-simulating computer.

The Computer Museum is state-of-the-art fun for the whole family right in downtown Boston. It's just a 10 minute walk from Faneuil Hall, and there's plenty to see and do for everyone—from the computer expert to the computer curious.

The control panel of SAGE, the largest computer ever built (top). A computer enthusiast in the PC Gallery (bottom).

The Computer Museum Store has a unique selection of computer-related books, gift items and mementos.

Get in touch with the past, present and future of computers—with a visit to the world's only computer museum.
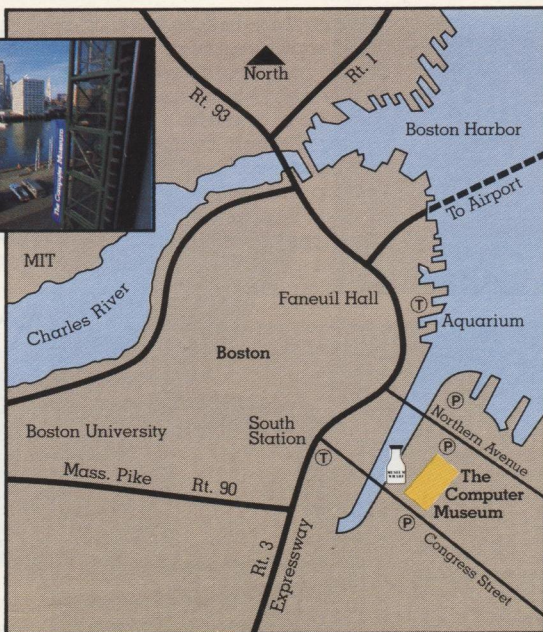

NO EXPERIENCE NECESSARY!

The Computer Museum.
A bit of the past.
A bit of the future.
A lot of fun.
